The Greene County Juvenile Office would like to take the opportunity to make sure that you are aware of the Caregiver Court Information Form. You, as the caregiver for a child in care, have the right to be heard in proceedings. This form is made available so that you may provide information about the child at scheduled court hearings. The form is optional, however; is offered as a mechanism to facilitate your right to be heard.

The Caregiver Court Information Form can be accessed electronically from the Children's Division Website (see below) or from the Greene County Juvenile website (above). If you choose to complete the Caregiver Court Information Form, please send the completed form two weeks in advance of the hearing to the Deputy Juvenile Officer (DJO) assigned to the case at the above address.

The Juvenile Office encourages and looks forward to the utilization of the Caregiver Court Information Form as a means to have additional information about the child in your care. Thank you in advance from the Greene County Juvenile Office staff for your input.
